

ICCSSE 2018

2018 The 4th International Conference on
Control Science and Systems Engineering
August 21-23, 2018 | Wuhan, China | <http://www.iccsse.com>

Following the success of ICCSSE 2014 in Yantai, China during December 29-30, 2014, ICCSSE 2016 in Singapore during July 27-29, ICCSSE 2017 in Beijing during August 17-19. ICCSSE 2018 will take place at *Huazhong University of Science and Technology*, Wuhan, China during *August 21-23, 2018*. The conference is co-sponsored by Huazhong University of Science and Technology of China, China Agricultural University, National Taiwan University and University of Malaya.

Control Science and Systems Engineering are entering the second golden phase. These new challenges bring with it new research questions resulting in the need to stimulate the rapid awareness of this very important research field, especially among the young researchers. ICCSSE conferences were wonderful opportunities, the support that we received and the enthusiasm which was witnessed has been truly beyond our expectations. Plan now to be part of this exceptional conference, as an attendee, event sponsor, or exhibitor. ICCSSE 2018 is where you will meet and network with energy leaders, business innovators, researchers, academics and policy makers from across the globe.

Conference History

December 29-30, 2014 | Yantai, China

Conference Proceedings: ISBN: 978-1-4799 6396-6
Online in Xplore:

Conference Proceedings

Selected and registered papers will be published in the conference Proceedings by Conference Publishing Services, and reviewed by the IEEE Conference Publication Program for **IEEE Xplore, Ei Compendex & Scopus**.

Submission Methods

By Email: iccsseconf@163.com
By Easy Chair:
<https://easychair.org/conferences/?conf=iccsse2018>

Follow us

Important Dates

Submission Deadline: June 15th, 2018
Notification Day: July 5th, 2018
Registration Deadline: July 20th, 2018
Proposals for special sessions: July 20th, 2018

Call for Paper

Embedded Control Systems.
Adaptive Control Techniques
Object-Oriented Petri Nets
Petri Nets
Model-Based Diagnosis
Lisp Programming
Real-Time Systems
Real-Time and Fault-Tolerant Systems
Alarming and Fault Diagnosis Systems
Fuzzy Control Systems
Neuro Controllers
Neuro-Fuzzy Controllers

Robust Control
Stability, Controllability and Observations
Multidimensional Systems
Robot and Manipulator Control
Pursuing and Tracking
Linear and Non-Linear Systems
Power System Control
Perceptual Control Systems
Autonomous Traffic and Transport Systems
Modeling and Simulator Building
Modeling, Estimation and Prediction
Automatic Control of Chemical Processes
