Subject: Advances in Mechanical Engineering - Decision on Manuscript ID AME-16-1210.R1

10-Oct-2016

Dear Associate Professor XU,

It is a pleasure to accept your manuscript entitled "Multidisciplinary reliability design optimization under time-varying uncertainties" in its current form for publication in Advances in Mechanical Engineering.

Thank you for your fine contribution.

For your information, to enable the publication of your paper, the post-acceptance process is as follows:

1. You will be contacted to complete the SAGE Open Access Contributor Agreement
2. Your manuscript files will be checked in preparation for the production process
3. If you have not already done so, please could you provide the original figure files for your paper (such as .jpg, .tiff or .eps - as individual files not inserted into Word document), and the final version of the paper in an editable format, such as Word or Latex, to aime@sagepub.co.uk as soon as possible?
4. The files will be exported to SAGE's production system
5. The open access article processing charge (APC) will be requested by RightsLink Copyright Clearance Center, SAGE's APC collection partner
6. Next, you will receive proofs of your article which should be checked thoroughly and returned promptly

7. Then, your article will then be published on the journal website –
AIME.sagepub.com

On behalf of the Editors of Advances in Mechanical Engineering, we look forward
to your continued contributions to the Journal.

Yours sincerely,

Dr Yongming Liu
Advances in Mechanical Engineering
